## CLIPSO® EXPERIENCE

"My wife had the idea of printing her creation to brighten up our interior. All that remained was to choose the support: sticker, wallpaper, giant poster, PVC film, etc. A durable material, pleasant to the touch, with good print quality, ecological, a one-piece covering... CLIPSO® covering was perfectly suited. My wife is delighted because the result is great, breathtaking."

## CLIPSO® EXPERIENCE

"The house we'd just bought needed refurbishing. All the ceilings and walls were in very poor condition: scales, cracks, stains, holes, etc.

We opted for CLIPSO® after comparing it with other solutions on the market. And we're satisfied with the impeccable finish of our CLIPSO® ceilings and stretch walls. What's more, the speed of installation allowed us to move in quickly."

# CLIPSO® EXPERIENCE

"I had plans to transform my old attic into a modern office. Since I had no knowledge of decoration or DIY, I called on an interior designer in my city, who was also an approved installer of the CLIPSO® network.

My stretched ceiling fits perfectly into my new workspace, in perfect harmony with its contemporary styling. It also made it possible to hide all unsightly cables, lighting and ventilation systems."
